About the Partnership

The Watford Partnership for Teacher Training is a local approach to support those colleagues in the early stages of their career and beyond. Currently, there are twelve secondary schools and six primary schools involved in the Partnership, and it keeps growing.

The Partnership incorporates both Initial Teacher Training (ITT) and the Early Career Framework (ECF) to create a three-year programme of professional development.

CPD background

At the Watford Partnership for Teacher Training, CPD is a shared responsibility across all 18 partner schools:

- The partnership has **two core strands**:
 - **Professional Studies**
 - **Subject Studies or Primary Studies**
- Professional development leads run the Professional Studies programme across The Watford Partnership sharing their experience and expertise
- Heads of department/experienced Teachers establish priorities for trainees and ECTs in their subjects and lead on Subject Studies programme
- There are 6 sessions per year which are all face to face
- ITTs and ECTs follow all training session provided to ensure they have a complete diet of CPD during their early years of teaching
- In addition to this, ECTs and their mentors follow a programme created by the Education Development Trust (EDT)
